

A Well-Oiled Machine? Federal/State Enforcement in Oil & Gas

September 25, 2019
1:30pm-2:30pm ET

Federal and state antitrust enforcers sometimes disagree. This program will consider the instructive history of antitrust enforcement in the oil and gas sector, focusing particularly on the instances where federal and state enforcers have diverged in their decisionmaking. We will look in particular at the California AG's recent *Valero* action, discussing how the state AG took a different course from the federal enforcer. We will also consider how best to counsel clients in a world where state AGs may take a different path than federal enforcers.
