
Wiggin and Dana Announces New “Clean” Technology Practice Group

Clean Technology is Focus of Firm’s New Group

NEW HAVEN, CT – Wiggin and Dana is pleased to announce the formation of the Clean Technology Practice Group, which will help guide companies of all sizes that are developing and commercializing new clean technology and venture capitalists and others that invest in those companies.

“This practice group will harness the resources of both the firm’s leading venture capital and emerging growth companies practices as well as the in depth industry experience in the energy and sustainable energy and utilities field,” comments Frank Marco, Partner and Co-Chair of the Clean Technology Practice Group. “The practice will be focused on representing both emerging growth and large companies that have proprietary technologies used in solar, fuel cells, wind power, geothermal, clean coal and other areas, as well as investors investing in those companies. This puts the firm at the cutting edge of a national priority.”

“In formalizing our group, we have developed a strategy encompassing a range of relevant areas of our firm’s experience in order to better serve clients who are involved in developing clean technology,” comments Marco. Wiggin and Dana’s Clean Technology Practice Group includes attorneys from a range of existing firm practice groups including corporate, emerging companies, environmental, climate change and sustainable development, tax, and energy and utilities.

Celebrating our 75th Anniversary in 2009, Wiggin and Dana LLP is a full service firm, with 140 attorneys, serving clients domestically and abroad from offices in Philadelphia, New York and Connecticut. For more information on the firm, visit our website at www.wiggin.com.
