Texas)

Steven Hansen focuses his practice on patent litigation. He has extensive experience litigating patent cases and was previously a patent litigation partner at Quinn Emmanuel Urquhart & Sullivan LLP and special counsel at LTL Attorneys LLP. Prior to attending law school, Steve was a process engineer and process control engineer for Amoco Oil Company. He was selected to Thomson Reuter's "Super Lawyers" list in 2013, Michigan's "Super Lawyers" list for IP for 2023 and 2024, and Southern California's "Super Lawyers" list for IP for 2023.

Steve has experience in a wide variety of technologies, including 3D printing, smart TVs, surgical headlamps and cameras, nerve stimulation devices, hot surface igniters, marine propulsion systems and ballast controls, spinal implants, telemedicine, lubricant chemistries, polyalkylene glycols, alkylene oxide production processes, oil refining, exhaust aftertreatment, nucleic acid isolation and purification, molecular diagnostic testing, protein chemistry, biosensors, nanotechnology, transdermal drug delivery, immunoassays, pet toys, cellular networks, bicycle components, vehicle lifts, polymers, pressure sensitive adhesives, scanning electron microscopy, vehicle safety systems, remote controls, and business methods. He has also prepared and prosecuted numerous utility and design patent applications, requests for reexamination, and reissue applications.
